

# Hole Locator & Hole Pattern Duplicator - TracerMarker

- Easily duplicates accurate hole locations.
- Works where traditional hole location tools are difficult to use.
- Eliminates the cost of expensive shop aids and templates.
- Significantly reduces shop time required for locating holes.
- Eliminates costly mistakes for mislocated hole patterns in parts.

P/N	PILOT DIAMETER	RECOMENDED FOR WIRE SIZE	QTY IN PACK
STPK	ALL BELOW	ALL BELOW	108 (12 EACH)

STM6209	.2050 - .2090	#5 - #4	100 EACH
STM4257	.2500 - .2570	#E - #I	100 EACH

Technical Instructions (Detail instructions provided with each pack.):

1. Place pilot into holes to be copied.
2. Remove backing to expose self-stick adhesive surface.
3. Place new part in position and press to cause the TracerMarker to adhere to the new part.
4. Remove new part and tap all TracerMarkers with a hammer.
5. Remove the TracerMarkers from the part and reveal the new hole locations for drilling.
